## » HANDY AND FLEXIBLE

Due to the flexible and modular spans, lengths and heights of the tent systems RÖDER H-TENTS series are the perfect space solution for small to medium requirements.

## RÖDER H-TENTS

### FLEXIBLE AND MOBILE

RÖDER H-TENTS persuade visually, economically and with safety. Due to the flexible and modular spans, the modular dimensions of 3.0 or 5.0 meters and height of 2.3 meters and 3.0 meters, the tent systems can be used in many ways. Due to the sustainable mobility, their elaborate designs and innovative details the tent system can be quickly and easily assembled and installed at almost any location within a very short time.

The tent systems include the **HOLIDAY party tent, HOLIDAY Hexagonal, HOLIDAY Uno and the FIESTA, FIESTA party Tent and FIESTA Hexagonal**. In addition, the RÖDER Group offers an extensive range of accessories for extensions and options. Its portfolio ranges of facade elements, special doors and gates, various plan versions above ground, heating and lighting systems to custom-made furnishings.

Come and speak to us in person to find out which tent or marquee system best meets your requirements. The RÖDER team looks forward to helping you find the perfect accommodation!

## » WIDE RANGE OF APPLICATIONS

RÖDER H-TENTS provide space for the design and realization of ideas and projects. By combining with other RÖDER tent and hall systems as well as diverse and variable expansions, new opportunities for impressive space solutions arise.

### POSSIBLE APPLICATIONS

**FAMILY EVENT SPORTFESTIVAL RIDING BOXES  
CONCERTS COMPANY EVENTS ANNIVERSARY FAIRS  
PRODUCT PRESENTATIONS FESTIVALS VIP-EVENTS  
CORPORATE-EVENTS SALES PROMOTION EXHIBITIONS EVENTS  
FESTIVALS SPORT EVENTS SUMMER FESTIVALS  
SPECIAL SALES CAMPAIGN GALERIES MARKETS ROADSHOWS  
FASHION SHOWS CATERING CONGRESSES MARRIAGES  
CITY FESTIVALS STORAGE SHELTER GASTRONOMY  
ROOFING CANTEENS SALES ROOM LOCKER BAR DORM  
WORKSHOP PRODUCTION THEATRE CLUB ENTERTAINMENT**

## THE SYSTEM FOR MORE ROOM

The modular design of RÖDER H-TENTS is effective and efficient thanks to the wide range of possible uses. The tent and marquee systems offer the right accommodation for individual and extraordinary requirements and occasions.

## EFFECTIVE AND EFFICIENT

## FLEXIBLE AND MODULAR

### EQUIPMENT FEATURES

#### WELL THOUGHT STABILITY

The RÖDER H-TENTS can be quickly and easily assembled and disassembled by stable and solid connection elements. The well-designed combination of supporting and connecting elements guarantees a proven high level of structural stability. Many optional pieces of equipment and tent components can be added to the standard scope of delivery. Everything from the floor system, framework, terraces, galleries, cladding right up to the roof tarpaulins can all be customised to make the tent and marquee systems individual. RÖDER H-TENTS are flexible and modular by its extensive equipment options.

#### 1. Stability

RÖDER guarantees a high level of stability on almost any terrain.

#### 2. Connections

Easy and safe: The bolt connections of RÖDER H-TENTS

#### 3. Expander hook

The recessed expander hook protects the profile against transport damage and optimizes the handling.

#### 4. Track rollers

Track rollers allow you to quickly open and close the side tarpaulins

#### 6. Accessories

Exclusive accessories such as the various facades, door systems or transparent side and roof tarpaulin lead to an impressive ambience

#### INCLUDED IN DELIVERY

Frame construction with anodised aluminum profiles

White roof tarpaulins with fixed hem and bungee tensioning

White side tarpaulins with central divisions

Ground bars for the side tarpaulins

Pegs, setup tube and mounting rope

#### SPECIAL EQUIPMENT

Windows for the side tarpaulins

Various floor and facade systems

Various ways of setting up or remodeling the tents

Arch-shaped bars instead of diagonal bars

Different types of doors and entrances

Fixed anchors for the roof tarpaulins

Interior decoration and lighting

#### DESCRIPTION OF FRAME MATERIAL

Anodized and high strength aluminum profile

Connecting elements made of aluminum and galvanised steel

#### DESCRIPTION OF TARPULIN MATERIAL

RÖDER No. 1, PVC-coated tarpaulins produced in line with DIN 18204

Classified as 'difficult to ignite' by DIN 4102 and EN 13501

Dirt-repellent and light-fast

Lets daylight through and UV-resistant

Low-wick coated polyester threads

## TECHNICAL FEATURES

### DURABLE AND HIGH-QUALITY

#### DECADES OF EXPERIENCE

The RÖDER Group uses only the most qualified staff, the best materials and constantly draws on its decades of experience in the field of temporary accommodation – right from the very start of the construction and production process of the tent and marquee systems. We achieve high customer satisfaction through quality and safety. Continuous and reliable quality management means we can place our trust in the materials we use. The RÖDER Group is certified according to the European standards EN ISO 9001:2008 and EN ISO 14001:2009. All structures are calculated and tested in accordance with the European standard EN 13782.

#### 1. Construction

The modular design principle allows various types of construction and expansion.

#### 2. Equipment

RÖDER offers many exclusive types of facades and equipment to go with its tent and marquee systems.

#### 3. Logistics

Specialist partners take on the task of transporting the tent and marquee systems. As a trusted and known dispatcher, RÖDER benefits from a fast-track customs clearance process. This guarantees a just-in-time availability worldwide.

#### 4. Production

RÖDER production is respectful to both people and the environment – worldwide.

The anodised aluminum frame is equipped with highly secure profiles and has two- or four-channel keder technology. The sophisticated keder technology makes it possible to expand the tents in many different ways – using the modular design principle. The keder technology also provides protection against bad weather and storms. Highly secure aluminium alloys and galvanized steel guarantee a long-life hold.

RÖDER conducts the planning in line with the minimum quality standards laid down by the DIN 18204 product certification. The long-life RÖDER No.1 tarpaulins are equipped with polyester threads that have a special low-wick and PVDF coating. This increases their resistance against bad weather, prevents dirt building up on the surface and damp getting through. The tarpaulins are classified as 'difficult to ignite' by the standards DIN 4102 and EN 13501, are resistant against fungus and spores (fungicidal), and are UV-proof.

The tents guarantee easy handling as they are quick and easy to set up, do not take up much storage or transport space, and the highly secure aluminium profiles are lightweight. The installation and dismantling of the tents will not demand too much manpower or incur high costs.

## QUALITY MANAGEMENT

### ENGINEERED IN GERMANY

IN ALL PROCESSES, WE ENSURE THAT THE HIGHEST QUALITY AND SAFETY STANDARDS ARE COMPLIED WITH IN ORDER TO PROTECT OUR CUSTOMERS AND TO OFFER THEM THE BEST-LOOKING PRODUCT WITH THE BEST MATERIALS. THIS IS WHY QUALITY, SAFETY AND DURABILITY ARE FIRM COMPONENTS OF RÖDER'S COMPANY CULTURE.

In order to optimise production and business processes and to maintain all safety guidelines so as to guarantee product quality and customer satisfaction, the RÖDER Group employs consistent, sustainable and thorough quality management. The concept of our quality management is based on internal and external input. All relevant processes are defined and documented – from the design phase, material selection and project planning right up to when the tent and marquee systems are given to the customers. As a high-end manufacturer, 'Engineered in Germany and 'Made by RÖDER' is our promise of quality to our customers. Both our design expertise and quality management are therefore pivotal for the success of our products and trust of our customers.

The quality management systems, which are tested and certified in accordance with the **European standards EN ISO 9001:2008** and **EN ISO 14001:2009**, relate to the design, construction, production, sale and hiring out of RÖDER tent and marquee systems. In order to guarantee the quality promised by the RÖDER Group, all members of staff take part in regular external and internal training on quality and safety. All our temporary accommodation is inspected by TÜV in terms of construction, structure and the tarpaulins. In addition, the company receives external advice and supervision from Bavarian-based company inspectors, the **LGA (Landesgewerbeamt Bayern)**.
