VERSATILE APPLICATIONS
Customised, functional hall systems for any requirement

RÖDER GROUP

The RÖDER Group is an internationally successful specialist for mobile and modular space solutions. With more than 560 dedicated employees at 31 locations worldwide, the company's top quality, technical expertise and exceptional service in temporary and static structures are guaranteed to impress.

From development, construction and production all the way to distribution, the RÖDER Group prides itself on its role as a premium supplier. The fundamental aim is to achieve the highest levels of customer satisfaction through the provision of first-class tent and hall systems, combined with an impeccable comprehensive service offer.

The company's strength lies in the originality and versatility of the modular and flexible tent and hall systems. With span widths from three to 60 metres, a range of lengths and heights, models with up to three floors and countless annexes and extensions, the RÖDER Group has the perfect space solution for every requirement – all over the globe.

QUALITY AND SAFETY

For us as a premium supplier, 'Engineered in Germany' and 'Made by RÖDER' reflect the quality promise we offer our customers. Compliance with the strictest quality and safety standards is at the forefront of all of our actions.

The RÖDER Group is committed to continuous, sustainable and meticulous quality management. In light of this, the company is certified in accordance with the European standards **EN ISO 9001:2008** and **EN ISO 14001:2009**. All statics are calculated and checked in accordance with the European standard **EN ISO 13782**.

PREMIUM SUPPLIER

ENGINEERED IN GERMANY

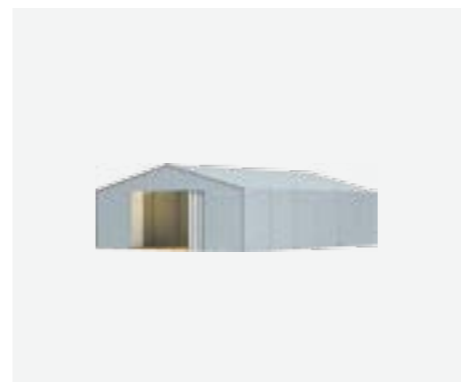

OPTIMAL SELECTION
The RÖDER product range offers three mobile hall series: S-line, H-line and T-line

RÖDER INDUSTRIAL HALLS RANGE

S-LINE

5 m, 7.5 m, 10 m, 12.5 m, 15 m, 17.5 m, 20 m

RÖDER S-LINE – robust, flexible and cost-effective

The S-LINE hall systems in seven span widths from 5 m to 20 m, unlimited lengths, 2.50 m modular dimensions and side-heights of 3.50 m, 4.40 m or 5 m are especially cost-effective space solutions for logistical requirements of all types. For installation they just need simple Earth or screw anchors, wedge anchors, and individual or strip footing. Calculable costs, the ability to set up the halls anywhere, the modular constructions and quick availability provide a decisive competitive edge.

H-LINE

10 m, 15 m, 20 m, 25 m, 30 m, 40 m

RÖDER H-LINE – versatile space sensation (insulated or non-insulated)

The H-LINE series industrial and storage tents are available in six different span widths from 10 m to 40 m and side-heights of 4.20 m, 5.20 m and 6.20 m. The special roofing made from twin-panelled, air-filled thermal tarpaulin creates the ideal climate, reduces heating costs, prevents condensation, improves the snow loading capacity and enables work in daylight. It also offers little hold for snow and ice to accumulate. Efficiency tests on the insulating wall and roof construction have shown a reduction of energy consumption of up to 54%.

T-LINE

10 m, 15 m, 20 m

RÖDER T-LINE – solid and flexible

The RÖDER T-LINE hall systems combine the flexibility of a temporary space solution with the stability of a permanent structure. With span widths of 10 m, 15 m and 20 m, a height of 6.20 m and unlimited length, the RÖDER T-LINE has versatile applications. The sophisticated steel frame is manufactured in a special welding process that lends maximum stability and durability to the construction.

INDUSTRY AND TRADE

Service and industrial companies need space solutions that suit their special requirements exactly. Quick, cost-effective and flexible solutions are often needed. RÖDER INDUSTRIAL specialises in solutions that meet the mobile and modular space requirements of individual sectors. The storage and logistics solutions from RÖDER have impressive safety features in addition to being cost-effective. Different span widths, and flexible and modular lengths and heights allow for versatile applications. The hall systems for logistics and storage from RÖDER combine the flexibility of a temporary space solution with the stability of a permanent structure. RÖDER hall systems do not necessarily need planning permission if they are only temporary, and are cheaper than building solid roofs.

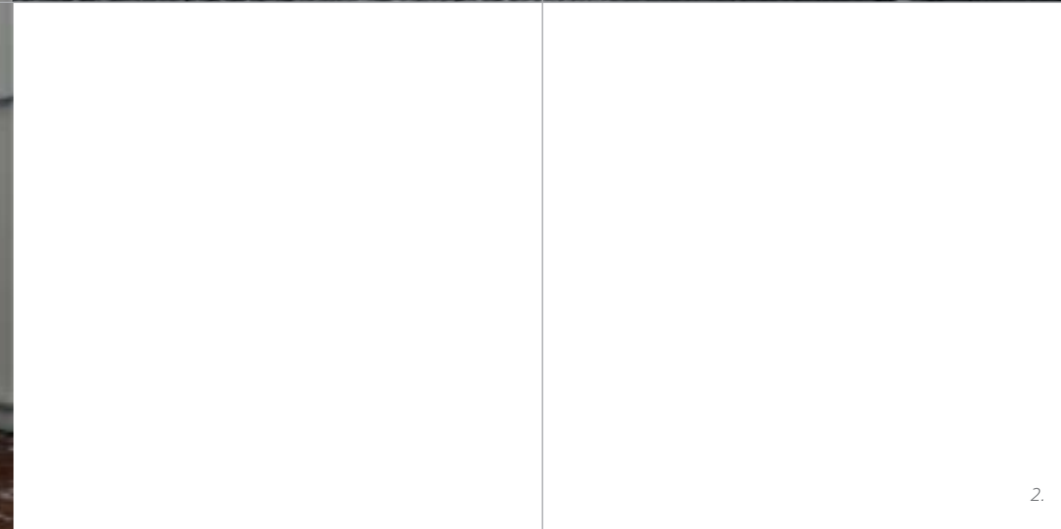

AREAS OF USE

- Logistics solution
- Sales room
- Workshop
- Storage room
- Production room
- Shipping depot
- Outsourcing
- Distribution
- Industrial hall
- Production hall

T

TOP EQUIPMENT
Comprehensive RÖDER accessories allow for customised hall systems to meet any requirement.

CUSTOMISED SOLUTIONS AND EQUIPMENT OPTIONS

The individual hall models supplied by the RÖDER Group come with an extensive range of equipment and expansion options. The individual span widths, variable lengths, side-heights and modular dimensions allow for customised products. The accessories portfolio ranges from facade elements and special door and gate systems and versatile tarpaulin variants and safety devices to flooring, heating, air conditioning and lighting.

BENEFITS

- Functional hall solutions
- Professional advice and full service
- Diverse equipment and expansion options
- Variable, expandable modular concept
- Customisable branding in company designs
- Temporary or permanent installations
- Installation almost anywhere in the shortest of times
- Extensive range of customisable accessories
- Outstanding value for money compared to solid structures
- Sophisticated structures ensure the highest quality and safety standards
- Flexible finance options – purchase, hire and leasing

FLEXIBLE AND MODULAR

1. Stability thanks to high-quality manufacturing, 2. Versatile gate system variants, 3. Stable frame constructions, 4. High snow loading capacity

INDIVIDUAL AND FUNCTIONAL
Special space solutions for logistics
and industry

TEMPORARY OR PERMANENT INSTALLATIONS

**PERFECT
SPACE SOLUTIONS**

The RÖDER Group is a premium manufacturer for temporary architecture. Thanks to its mobile logistics halls, unforeseen storage situations and spatial bottlenecks are no longer a problem.

Unlike conventional halls, the sophisticated construction of the flexible hall systems mean they can be assembled almost anywhere in the shortest possible time.

They offer a short-term, needs-oriented and cost-effective alternative to solid structures, both for temporary and permanent use. Upon request, we will gladly assume responsibility for all project planning activities for your individual hall solution, including consultation, planning, all logistics and the professional execution, right the way through to final handover. The RÖDER Group offers different flexible finance options, including systems for purchase, hire and leasing.

Contact us to set up your personal consultation now.
