## » FLEXIBLE AND VERSATILE

The solutions of RÖDER W-TENTS show its strengths, when a gain of ceiling height is desired. High ceilings provide not only a plus of elegance and well-being, but also provide easily accommodate theaters, music systems or even exhibition stands.

## RÖDER W-TENTS

### AESTHETIC AND VERSATILE

The RÖDER W-TENTS can be flexibly adapted to the given conditions. The wine tents persuade visually, economically and with safety across the board. Due to their constructions and their low packing volume, the systems can be installed quickly and easily transported.

RÖDER W-TENTS are characterized primarily by their combinability. The tent systems perfectly match with the RÖDER W-TENTS, if the technical features such as side height or bay distance / grid match. In this context arise tent impressive tent landscapes.

In addition to the **Giga Uno, Giga Quattro, Wine tent** and **Wine tent Octagon**, the RÖDER Group also offers a wide range of accessories. The accessories range from facade elements, speciality doors and entrances, various types of tarpaulins as well as floor, heating, air-conditioning and lighting systems – right up to individual furnishings.

Come and speak to us in person to find out which tent or marquee system best meets your requirements. The RÖDER team looks forward to helping you find the perfect accommodation!

## » WIDE RANGE OF USES

RÖDER W-TENTS offer space to plan and bring new ideas and projects to life. The diverse variants invite you to combine. Creative design options can make your own concepts come true.

### POSSIBLE APPLICATIONS

GALAS CONCERTS COMPANY EVENTS ANNIVERSARIES FAIR  
**PRODUCT PRESENTATIONS FESTIVALS** VIP-EVENTS MESS

Ground bars for the side tarpaulins

Pegs, setup tube and tarpaulin mounting ropes

#### SPECIAL EQUIPMENT

Windows for the side tarpaulins

Various floor and facade systems

Various ways of setting up or remodeling the tents

Arch-shaped bars instead of diagonal bars

Different types of doors and entrances

Fixed anchors for the roof tarpaulins

Interior decoration and lighting

#### DESCRIPTION OF FRAME MATERIAL

Anodized aluminium-profile with four-channel profile

Connecting elements made of aluminium and galvanised steel

Statics calculated by EN 13782

#### DESCRIPTION OF TARPULIN MATERIAL

RÖDER No. 1, PVC-coated tarpaulins produced in line with EN 15619

Classified as 'difficult to ignite' by DIN 4102 and EN 13501

Dirt-repellent and light-resistant

Lets daylight through and is UV-resistant

Low-wick coated polyester threads

## INVITING AND REPRESENTATIVE

## TECHNICAL FEATURES

### DECADES OF EXPERIENCE

The RÖDER Group uses only the most qualified staff, the best materials and constantly draws on its decades of experience in the field of temporary accommodation – right from the very start of the construction and production process of the tent and marquee systems. We achieve high customer satisfaction through quality and safety. Continuous and reliable quality management means we can place our trust in the materials we use. The RÖDER Group is certified according to the European standards EN ISO 9001:2008 and EN ISO 14001:2009. All structures are calculated and tested in accordance with the European standard EN 13782.

#### 1. Construction

The modular design principle allows various types of construction and expansion.

#### 2. Equipment

RÖDER offers many exclusive types of facades and equipment to go with its tent and marquee systems.

#### 3. Logistics

Specialist partners take on the task of transporting the tent and marquee systems. As a trusted and known dispatcher, RÖDER benefits from a fast-track customs clearance process. This guarantees a just-in-time availability worldwide.

#### 4. Production

RÖDER production is respectful to both people and the environment – worldwide.

The anodised aluminium frame is equipped with highly secure profiles and has two- or four-channel keder technology. The sophisticated keder technology makes it possible to expand the tents in many different ways – using the modular design principle. The keder technology also provides protection against bad weather and storms. Highly secure aluminium alloys and galvanized steel guarantee a long-life hold.

RÖDER conducts the planning in line with the minimum quality standards laid down by the EN 15619 product certification. The long-life RÖDER No.1 tarpaulins are equipped with polyester threads that have a special low-wick and PVDF coating. This increases their resistance against bad weather, prevents dirt building up on the surface and damp getting through. The tarpaulins are classified as 'difficult to ignite' by the standards DIN 4102 and EN 13501, are resistant against fungus and spores (fungicidal), and are UV-proof.

The tents guarantee easy handling as they are quick and easy to set up, do not take up much storage or transport space, and the highly secure aluminium profiles are lightweight. The installation and dismantling of the tents will not demand too much manpower or incur high costs.

## » EXPANSIONS

Various RÖDER tents and marquees can be combined with each other and expanded in many different ways to create impressive accommodation.

## QUALITY MANAGEMENT

### ENGINEERED IN GERMANY

IN ALL PROCESSES, WE ENSURE THAT THE HIGHEST QUALITY AND SAFETY STANDARDS ARE COMPLIED WITH IN ORDER TO PROTECT OUR CUSTOMERS AND TO OFFER THEM THE BEST-LOOKING PRODUCT WITH THE BEST MATERIALS. THIS IS WHY QUALITY, SAFETY AND DURABILITY ARE FIRM COMPONENTS OF RÖDER'S COMPANY CULTURE.

In order to optimise production and business processes and to maintain all safety guidelines so as to guarantee product quality and customer satisfaction, the RÖDER Group employs consistent, sustainable and thorough quality management. The concept of our quality management is based on internal and external input. All relevant processes are defined and documented – from the design phase, material selection and project planning right up to when the tent and marquee systems are given to the customers. As a high-end manufacturer, 'Engineered in Germany' and 'Made by RÖDER' is our promise of quality to our customers. Both our design expertise and quality management are therefore pivotal for the success of our products and trust of our customers.

The quality management systems, which are tested and certified in accordance with the **European standards EN ISO 9001:2008** and **EN ISO 14001:2009**, relate to the design, construction, production, sale and hiring out of RÖDER tent and marquee systems. In order to guarantee the quality promised by the RÖDER Group, all members of staff take part in regular external and internal training on quality and safety. All our temporary accommodation is inspected by TÜV in terms of construction, structure and the tarpaulins. In addition, the company receives external advice and supervision from Bavarian-based company inspectors, the **LGA (Landesgewerbeamt Bayern)**.

## »» MORE ROOM FOR POSSIBILITIES

The RÖDER W-Tents series is the all-rounder for any application where more space and height is required.
